Aatmik Gupta

Another Step towards Glory

A quiz competition was held at New Era Public School on 23rd and 24th of July, 2015. Aatmik Gupta of our school won the first prize in General Quiz and second prize in Sports and Entertainment category.

Aatmik also won the first prize in the quiz competition with the theme - 'Kabira Khada Bazaar Mein' held at Gyan Bharti School on 25th July, 2015

Modern School wins Inter-School Debate

The Modern School Debating Team, consisting of Parth Bhatia, Chahat Kapila and Aatmik Gupta, participated in the 33rd Mod Debate held at Modern School, Vasant Vihar, on the 16th of July.

The team made it through three rounds of intense debate in different formats including parliamentary debate, block-and-tackle, turncoat and extempore speaking. The debate was designed to test the competitors' aptitude, knowledge, confidence, and was a departure from standard events where students rote-learn debate and hardly challenge their own abilities. Topics ranged from the humorous: "Gandhi, Lennon, or Harry Potter: Which pair of glasses to choose?" to the polarizing: "In our biased society, we all deserve some fairness cream."

The winners with Firoz Sir

After beating schools such as Vasant Valley, The Shri Ram School (Aravali), and Amity International School, our school team entered the finals, facing off against the team from Springdales School, Pusa Road. Even as both teams tried their best to outdo the other, the Modern School team ultimately emerged triumphant and received the prestigious trophy.

IAYP MANPANCHI: Bringing Smiles to the Poor Child

A concept visualized by Revant Aggarwal, S5 F. The aim is creative upliftment of the poor children. While these children are already going to school, and trying to study, there is nobody to teach them drawing and tell them stories.

To make this a reality, Revant has started a Sunday drawing class in the park near his home. This class is for one hour in which, Revant and his mother teach the children drawing, coloring and tell them stories. They also share anecdotes with them and listen to stories from their lives. The children are provided with drawing and coloring material free of cost and also with refreshments. The children are very happy and very eager to attend these classes and this has motivated the duo further. From a humble beginning with 6 children the count has successfully gone upto 12 children in just 6 weeks. Revant is hoping for a count of 20 children. He has also asked his friends to volunteer in this venture. While nurturing a spirit of creativity, the children are also encouraged to value work and perform better.

Science Innovation Club

Month Activity

JAN '14 INTERNATIONAL YEAR OF OPTICS
Hands On activities on reflection, refraction, diffraction, rainbow formation, total internal reflection, glass of water as a lens, reflection and refraction through bulb.

Teacher: Ms. Sutapa Laha De

APRIL '15 MOTOR MAKING WORKSHOP
Concept of electromagnetism explained and were incorporated in making toys and a hands on session on motors. A toy making workshop was held.

Guest Invite: Mr. Daljeet
Teacher: Ms. Sutapa Laha De

MAY '15 SOLAR LANTERN MAKING WORKSHOP
Students were taught to make a functional sustainable solar lantern by our faculty - Mr. Anil K. Gupta.

Teacher: Ms. Sutapa Laha De

JULY '15 INNOVATIVE RECYCLING
On Concept Building of innovative ideas. Hands On activities by producing material such as straws, old bottles, paper, thread and 'word card'.

Teacher: Ms. Sutapa Laha De

The Science Innovation Club of Modern School with a membership of more than 100 students and growing is proof that Science is fun and can be logical and magical at the same time. The main aim of this club to clear the basic concepts, inculcate scientific rationale and investigative thinking. Also to bring in originality and personality into innovations/working models and toys.
